

Adobe Premiere Pro Training Courses Sydney, Melbourne, Brisbane, Onsite and Online

Premiere Pro Basics | Course Overview

COURSE DESCRIPTION

The 1 day Premiere Pro Basics course is designed for beginners who need to fast-track their learning to start using Adobe Premiere Pro immediately and proficiently. Aimed for people who require Premiere Pro for minimal purposes such as producing and editing video for social media channels and / or websites.

This course will teach you basic video editing techniques and how to include some simple effects and transitions. Learn to add titles, images, logos etc and best practice techniques for cutaways especially in the context of editing interviews.

The final process is learning how to export / publish your video to the right specifications for the various social media platforms and the varying devices such as mobile phones.

If you require more comprehensive training on Premiere Pro that includes advanced editing techniques, special effects, colour correction and more indepth training on audio, the 2 day Premiere Pro Essentials course is more suitable.

Our instructors are Adobe Certified, industry experienced and passionate about training! Especially with Premiere Pro, we recommend using the latest version - CC2020 as the latest features utilise techniques and workflows not available in earlier versions.

As an Adobe Authorised Training Centre – participants receive upon course completion a Certificate recognised by Adobe.
