

Adobe After Effects Training Courses

Sydney, Melbourne, Brisbane & Online

After Effects Advanced | Course Overview

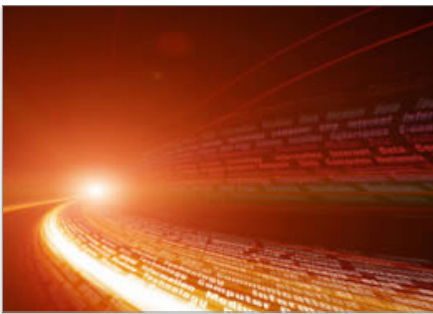

COURSE DESCRIPTION

Our in-depth two day course explores existing and exciting new advanced features regularly being added to Adobe After Effects to utilise the whole application to deliver professional outcomes.

Learn detailed real-life expert tips and tricks to create stunning advanced 3D extruded typography and shape layers using the Cinema 4D renderer, complex and compelling infographics, Cinemagraphs, character animations and more. Class projects will teach you how to harness the power and diversity of expressions, scripts, particle simulation Effects, Rotoscoping, advanced 3D camera and lighting setups and the Cinema 4D CINEWARE plugin workflow.

Especially with After Effects, we recommend using the latest version - CC2023 to utilise the dynamic new features and workflows.

As an Adobe Authorised Training Centre – participants receive upon course completion a Certificate recognised by Adobe.

PREREQUISITES

Students should have either completed the **After Effects Essentials** course or have equivalent experience.

An After Effects assessment is available if you are unsure of your user level, please email us at info@cd.com.au.
